

Just An Ol' Memory

Just an Old Memory of a long time ago
Keeps knocking and I say come in
We'll talk for awhile, and then you must go
But please say you'll come back again

I remember the first time I saw you
You were wearing a rose in your hair
And the smile that you gave was from Heaven
That's when I knew that I cared

Just an Old Memory of a long time ago
Keeps knocking and I say come in
We'll talk for awhile, and then you must go
But please say you'll come back again

Many years have come and gone since I found you
The snowflakes now cover my hair
As I sit here tonight by my fireside
I know in my heart I still care

Just an Old Memory of a long time ago
Keeps knocking and I say come in
We'll talk for awhile, and then you must go
But please say you'll come back again
