

Little By Little

Little by Little, bit by bit
He's making me His will to fit
He started and He promised that He'd never quit
Little by Little, bit by bit

From the pit, to Potiphar's place
Joseph had so many trials to face
But little by little GOD would show
It's not what you do but who you know

Little by Little, bit by bit
He's making me His will to fit
He started and He promised that He'd never quit
Little by Little, bit by bit

It's glory to glory this road I'm on
From strength to strength, He's making me strong
Little by Little the old man dies
More like Jesus I will arrive

Little by Little, bit by bit
He's making me His will to fit
He started and He promised that He'd never quit
Little by Little, bit by bit
Little by Little, bit by bit
